

**Rose Foundation  
Winter 2008 Grants**

<b>Acorn Soupe</b> <i>For Watershed Restoration Stewardship Projects</i> Fiscal Sponsor: McCormick Sanctuary	<b>\$10,000</b>	Hands-on environmental education for elementary school kids in Napa and Sonoma Counties, including raise and release of Steelhead trout and riparian habitat restoration.
<b>California Coastkeeper Alliance</b> <i>For Sacramento-San Joaquin Delta Pollution Mapping Project</i>	<b>\$13,000</b>	Mapping surface and ground water quality, land uses and pollution sources to the Delta. Results will be disseminated to the public, media and governmental decision-makers.
<b>California Product Stewardship Council</b> <i>For Empowering Local Governments in the San Francisco Bay Watershed to Lead the Transition to Extended Producer Responsibility</i>	<b>\$10,500</b>	Promote producer responsibility for the disposal of consumer products containing mercury and other toxics, so that local governments aren't saddled with toxics-related disposal and contamination costs.
<b>California Sportsfishing Protection Alliance</b> <i>For Watershed Enforcers Project</i>	<b>\$88,500</b>	Prevent Bay Delta water pollution and water transfers, citizen enforcement of state and federal water quality statutes, and organizational capacity building, including updating website.
<b>Center for Biological Diversity</b> <i>For San Francisco Bay &amp; Delta Water Quality Campaign</i>	<b>\$15,000</b>	Reduce pesticide usage and freshwater diversions from the Delta and tributaries. Also, helps defray a <i>Pesticide Summit</i> conference in San Francisco to help environmental and health activists discuss regional efforts to reduce pesticide use in the Bay/Delta watershed.
<b>Environmental Law Foundation</b> <i>For Anti-degradation &amp; Public Trust Project</i>	<b>\$25,000</b>	Watershed protection of the Bay-Delta based on the interlocking themes of the Public Trust Doctrine and the anti-degradation provisions of the Clean Water Act.
<b>Friends of the Petaluma River</b> <i>For Stormwater Pollution Reduction Programs</i>	<b>\$4,500</b>	Annual River Clean Up Day, which marshals broad community participation in removing detritus from the Petaluma River, and for on-going pollution monitoring.
<b>Greenaction</b> <i>For Protect the Bay, Protect the People Campaign</i>	<b>\$10,000</b>	Help Hunters Point residents push for safe and thorough toxic clean up and full disclosure of contamination risks, including a superfund toxic site and a sewage plant that handles 80% of San Francisco's raw sewage.
<b>People for Children's Health and Environmental Justice</b> <i>For Fish Contamination Project</i>	<b>\$5,000</b>	To evaluate 3 years of fish surveys from sites in Richmond, Berkeley, and San Francisco, and to educate sustenance fishers and the community about the risks of eating fish from the Bay that is contaminated with mercury, PCBs and toxins.
<b>Pesticide Watch Education Fund</b> <i>For Northern California Community Assistance Project</i>	<b>\$6,000</b>	Reduce unnecessary spraying for West Nile virus by mosquito abatement districts in the Sacramento Area.
<b>Save San Francisco Bay Association</b> <i>For Clean Bay Projects</i>	<b>\$20,000</b>	Public education about the negative effects of trash and litter on the Bay through the <i>Keep It Clean!</i> pollution prevention program and advocacy on stormwater permits.
<b>Total</b>	<b>\$207,500</b>
